

OLIWIA WIDUTO

Human Centred Designer // Animator

Belfast/North Coast | hi@fingerthief.com | 07936536548

From the dawn of time I've been burdened by life-changing technologies rendered unusable by a 10 foot drop between the machine & the user. 5 months ago I read "The Cyber Effect" by Mary Aiken and all my energies were shifted towards designing content which nurtures our existence. Advancement isn't slowing down, but it's completely in our hands to mould how it affects the human race.

EXPERIENCE

FABRIC-YARD

January 2018 - Current
